Kirkwood Community College Transfer Plan

Iowa State University College of Engineering Requirements

- Courses must be completed with a grade of “C” or better in order to be considered for transfer credit into the College of Engineering.
- Students not adequately prepared for success in Calculus I may need to take courses in addition to those listed below. Some students may first need to successfully complete college algebra (MATH 140; KCC MAT 120 or 138) and/or college trigonometry/prep for calculus (MATH 143; KCC MAT 136).
- The College of Engineering requires two years of a single foreign language in high school or the equivalent in college (typically two semesters).

General Education: Social Science/Humanities (SS/H) Requirements

- Engineering degree programs require between 12 and 15 general education credits in social sciences and humanities (SS/H). The list below offers course options that are accepted by all ISU engineering majors; however, each program has unique requirements—please confirm choices on an individual basis if you know your intended engineering major.
- Iowa State University requires each student to complete three credits of course work categorized as “US Diversity” (indicated below with ¹); and 3 credits of course work categorized as “International Perspective” (indicated below with ²). These can be included within the 12-15 credits of SS/H requirements.
