Introduction to Soil Science	AGA 154	AGRON 182	3

Ethics and Economics

Introduction to Ethical Conflicts	PHI 105	PHIL 230	3
Microeconomics OR Macroeconomics	ECN 130 OR ECN 120	ECON 101 OR ECON 102	3

Language Proficiency

World language proficiency is required through the intermediate level of coursework. Complete 100 and 200 levels of a single college-level world language. If English is your second language, this requirement may be waived upon confirmation of your first language.

Technical Concentration

A strong foundation in a technical area outside of Global Resource Systems is required. Students who have an Associates of Science (A.S.) degree within an agricultural or life sciences field, may be eligible to have this waived. Students who have an A.S. degree in a field outside agriculture or life sciences may be asked to complete a minor or second major to fill this requirement. **Note: some careers require accredited degrees in that specific field. It's recommended that you consult us and your community college faculty.**
